Your Farm Market

"Your produce,
your way
Not a typical CSA."

What is a Custom CSA?

A Community Supported Agriculture program, or CSA, is a program that allows you to purchase a portion of a farm's produce or products and receive deliveries of food all season long. In a traditional CSA, the farmer will select each week what items will be in your weekly box. A custom CSA is unique in that it allows you to choose the items and quantities that will be in each weekly box. For example, if you would rather purchase all strawberries in July instead of beans or cherries you can! Or perhaps you have plans to take a vacation in August and want to skip two deliveries you can! To understand how this is made possible please read on . . .

Program Options:

If you are interested in participating in the 2018 season or have questions about this program or Healthy Ridge Farm, please contact Daniel Barnard at 920-746-8889. Space in the program is limited and will be awarded on a first come first serve basis. The cost of the CSA is a **ONE Time per year** payment of \$550. From this \$525 will be made available for you to spend as Farm Dollars and \$25.00 is used to cover administrative items such as box deliveries, packaging costs and website administration. Payments may be made to Healthy Ridge Farm by check or online by credit card. (Online credit card payments will be \$565)

Your Farm Market Program Basics

• Step One - Sign up & Account Creation:

The program begins each year with a brief survey letting us know what types of foods your family enjoys. This information is important because it helps us determine what types, and what quantities of produce to plant. You will also be given a password, an online account, and Farm Dollars in our online store. The amount of Farm Dollars in your account is determined by the program option that you have selected.

• Step Two - Produce Selection:

A few days prior to each week's delivery, you will log into our online store and spend your Farm Dollars by choosing items from the current inventory of produce available. Each item will be listed by type and growing method. For example: Heirloom Tomatoes- Organic by Healthy Ridge Farm, or Sweet Corn - Grown Conventionally. Simply add them to your cart and check out using your Farm Dollars. You may also select "No Delivery" to let us know that you need to pass on the weeks box. This type of flexibility each week is what makes our program shine and separates us from a typical CSA. *Please note that up to 20% of your annual items may be selected & added to your order by us.*

• Step Three - Box Delivery:

The boxes will be freshly packed and delivered each week to a preselected location. You simply need to bring back your previous week's empty box and pick up your next pre-ordered box and enjoy!

Program Specifics and Details:

- **Sturgeon Bay** delivery times will be Tues. afternoon.
- **Northern Door** delivery times will be Wed. afternoon.
- **Green Bay** delivery times will be Fri. afternoon.
- Specific drop locations and times to be determined
- The season will begin in June and last until October, weather permitting. On average lasting 16 -18 weeks.
- Items grown at Healthy Ridge Farm are certified organic. Some produce from partnering farms will also be included and noted as such within the online store.
- There may be times during the season that items cannot be harvested due to extreme weather. In these instances, you will be notified as soon as possible that your order cannot be filled.
- If you are interested in sponsoring a local family in need, please contact us directly for additional information.
- Farm Dollars that remain in your account past the last delivery week can be used on items such as winter storage vegetables, jam, garlic powder or donations to the food pantry. **No refunds will be granted.**
- If you are interested in bulk orders on items as the season progresses, simply add a note online or contact Daniel to place a special order.
- Historically the cost of our produce has been at or lower than grocery store prices, bringing you great produce for a great value.
- Because of our small family-farm model we don't allow direct farm "pick-ups" or visits.
